Worktable Orig290F. Deaths from 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population, and sex: United States, 1999-2007

[Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1977 Office of Management and Budget standards. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Detailed technical notes to the United States 2007 data - mortality"]

Worktable Orig290F. Deaths from 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population, and sex: United States, 1999-2007

[Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1977 Office of Management and Budget standards. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Detailed technical notes to the United States 2007 data - mortality"]

Worktable Orig290F. Deaths from 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population, and sex: United States, 1999-2007

[Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1977 Office of Management and Budget standards. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Detailed technical notes to the United States 2007 data - mortality"]

| Cause of death (Based on the International Classification of Diseases, Tenth Revision, Second Edition, 2004), Hispanic origin, race for non-Hispanic population, sex, and year | All ages | Under 1 year | 1-4 years | 5-14 years | 15-24 years | 25-34 years | 35-44 years | 45-54 years | 55-64 years | 65-74 years | 75-84 years | 85 years and over | Age not stated |

Worktable Orig290F. Deaths from 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population, and sex: United States, 1999-2007

[Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1977 Office of Management and Budget standards. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Detailed technical notes to the United States 2007 data - mortality"]

Worktable Orig290F. Deaths from 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population, and sex: United States, 1999-2007

[Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1977 Office of Management and Budget standards. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Detailed technical notes to the United States 2007 data - mortality"]

Worktable Orig290F. Deaths from 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population, and sex: United States, 1999-2007

[Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1977 Office of Management and Budget standards. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Detailed technical notes to the United States 2007 data - mortality"]

Worktable Orig290F. Deaths from 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population, and sex: United States, 1999-2007

[Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1977 Office of Management and Budget standards. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Detailed technical notes to the United States 2007 data - mortality"]

Worktable Orig290F. Deaths from 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population, and sex: United States, 1999-2007

[Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1977 Office of Management and Budget standards. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Detailed technical notes to the United States 2007 data - mortality"]

Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1977 Office of Management and Budget standards. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Detailed technical notes to the United States 2007 data - mortality"]

| Cause of death (Based on the International Classification of Diseases, Tenth Revision, Second Edition, 2004), Hispanic origin, race for non-Hispanic population, sex, and year | All ages | Under 1 year | 1-4 years | 5-14 years | 15-24 years | 25-34 years | 35-44 years | 45-54 years | 55-64 years | 65-74 years | 75-84 years | 85 years and over | Age not stated |

Worktable Orig290F. Deaths from 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population, and sex: United States, 1999-2007

[Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1977 Office of Management and Budget standards. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Detailed technical notes to the United States 2007 data - mortality"]

Worktable Orig290F. Deaths from 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population, and sex: United States, 1999-2007

[Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1977 Office of Management and Budget standards. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Detailed technical notes to the United States 2007 data - mortality"]

Worktable Orig290F. Deaths from 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population, and sex: United States, 1999-2007

[Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1977 Office of Management and Budget standards. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Detailed technical notes to the United States 2007 data - mortality"]

Worktable Orig290F. Deaths from 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population, and sex: United States, 1999-2007

[Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1977 Office of Management and Budget standards. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Detailed technical notes to the United States 2007 data - mortality"]

| Cause of death (Based on the International Classification of Diseases, Tenth Revision, Second Edition, 2004), Hispanic origin, race for non-Hispanic population, sex, and year | All ages | Under 1 year | 1-4 years | 5-14 years | 15-24 years | 25-34 years | 35-44 years | 45-54 years | 55-64 years | 65-74 years | 75-84 years | 85 years and over | Age not stated |

Worktable Orig290F. Deaths from 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population, and sex: United States, 1999-2007

[Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1977 Office of Management and Budget standards. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Detailed technical notes to the United States 2007 data - mortality"]

Worktable Orig290F. Deaths from 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population, and sex: United States, 1999-2007

[Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1977 Office of Management and Budget standards. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Detailed technical notes to the United States 2007 data - mortality"]

Worktable Orig290F. Deaths from 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population, and sex: United States, 1999-2007

[Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1977 Office of Management and Budget standards. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Detailed technical notes to the United States 2007 data - mortality"]

| Cause of death (Based on the International Classification of Diseases, Tenth Revision, Second Edition, 2004), Hispanic origin, race for non-Hispanic population, sex, and year | All ages | Under 1 year | 1-4 years | 5-14 years | 15-24 years | 25-34 years | 35-44 years | 45-54 years | 55-64 years | 65-74 years | 75-84 years | 85 years and over | Age not stated |

Worktable Orig290F. Deaths from 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population, and sex: United States, 1999-2007

[Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1977 Office of Management and Budget standards. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Detailed technical notes to the United States 2007 data - mortality"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, Second Edition, 2004), Hispanic origin, race for non-Hispanic population, sex, and year

|  | All ages | Under 1 year | 1-4 years | 5-14 years | 15-24 years | 25-34 years | 35-44 years | 45-54 years | 55-64 years | 65-74 years | 75-84 years | 85 years and over | Age not stated |

Worktable Orig290F. Deaths from 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population, and sex: United States, 1999-2007

[Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1977 Office of Management and Budget standards. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Detailed technical notes to the United States 2007 data - mortality"]

| Cause of death (Based on the International Classification of Diseases, Tenth Revision, Second Edition, 2004), Hispanic origin, race for non-Hispanic population, sex, and year | All ages | Under 1 year | 1-4 years | 5-14 years | 15-24 years | 25-34 years | 35-44 years | 45-54 years | 55-64 years | 65-74 years | 75-84 years | 85 years and over | Age not stated |

Worktable Orig290F. Deaths from 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population, and sex: United States, 1999-2007

[Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1977 Office of Management and Budget standards. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Detailed technical notes to the United States 2007 data - mortality"]

Worktable Orig290F. Deaths from 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population, and sex: United States, 1999-2007

[Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1977 Office of Management and Budget standards. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Detailed technical notes to the United States 2007 data - mortality"]

| Cause of death (Based on the International Classification of Diseases, Tenth Revision, Second Edition, 2004), Hispanic origin, race for non-Hispanic population, sex, and year | All ages | Under 1 year | 1-4 years | 5-14 years | 15-24 years | 25-34 years | 35-44 years | 45-54 years | 55-64 years | 65-74 years | 75-84 years | 85 years and over | Age not stated |

Worktable Orig290F. Deaths from 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population, and sex: United States, 1999-2007

[Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1977 Office of Management and Budget standards. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Detailed technical notes to the United States 2007 data - mortality"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, Second Edition, 2004), Hispanic origin, race for non-Hispanic population, sex, and year

Worktable Orig290F. Deaths from 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population, and sex: United States, 1999-2007

[Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1977 Office of Management and Budget standards. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Detailed technical notes to the United States 2007 data - mortality"]

Worktable Orig290F. Deaths from 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population, and sex: United States, 1999-2007

[Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1977 Office of Management and Budget standards. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Detailed technical notes to the United States 2007 data - mortality"]

Worktable Orig290F. Deaths from 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population, and sex: United States, 1999-2007

[Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1977 Office of Management and Budget standards. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Detailed technical notes to the United States 2007 data - mortality"]

Worktable Orig290F. Deaths from 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population, and sex: United States, 1999-2007

[Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1977 Office of Management and Budget standards. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Detailed technical notes to the United States 2007 data - mortality"]

Worktable Orig290F. Deaths from 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population, and sex: United States, 1999-2007

[Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1977 Office of Management and Budget standards. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Detailed technical notes to the United States 2007 data - mortality"]

Worktable Orig290F. Deaths from 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population, and sex: United States, 1999-2007

[Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1977 Office of Management and Budget standards. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Detailed technical notes to the United States 2007 data - mortality"]

Worktable Orig290F. Deaths from 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population, and sex: United States, 1999-2007

[Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1977 Office of Management and Budget standards. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Detailed technical notes to the United States 2007 data - mortality"]

Worktable Orig290F. Deaths from 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population, and sex: United States, 1999-2007

[Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1977 Office of Management and Budget standards. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Detailed technical notes to the United States 2007 data - mortality"]

Worktable Orig290F. Deaths from 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population, and sex: United States, 1999-2007

[Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1977 Office of Management and Budget standards. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Detailed technical notes to the United States 2007 data - mortality"]

Worktable Orig290F. Deaths from 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population, and sex: United States, 1999-2007

[Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1977 Office of Management and Budget standards. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Detailed technical notes to the United States 2007 data - mortality"]

Worktable Orig290F. Deaths from 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population, and sex: United States, 1999-2007

[Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1977 Office of Management and Budget standards. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Detailed technical notes to the United States 2007 data - mortality"]

Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1977 Office of Management and Budget standards. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Detailed technical notes to the United States 2007 data - mortality"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, Second Edition, 2004), Hispanic origin, race for non-Hispanic population, sex, and year

|  | All ages | Under 1 year | 1-4 years | 5-14 years | 15-24 years | 25-34 years | 35-44 years | 45-54 years | 55-64 years | 65-74 years | 75-84 years | 85 years and over | Age not stated |

Worktable Orig290F. Deaths from 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population, and sex: United States, 1999-2007

[Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1977 Office of Management and Budget standards. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Detailed technical notes to the United States 2007 data - mortality"]

| Cause of death (Based on the International Classification of Diseases, Tenth Revision, Second Edition, 2004), Hispanic origin, race for non-Hispanic population, sex, and year | All ages | Under 1 year | 1-4 years | 5-14 years | 15-24 years | 25-34 years | 35-44 years | 45-54 years | 55-64 years | 65-74 years | 75-84 years | 85 years and over | Age not stated |

Worktable Orig290F. Deaths from 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population, and sex: United States, 1999-2007

[Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1977 Office of Management and Budget standards. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Detailed technical notes to the United States 2007 data - mortality"]

Worktable Orig290F. Deaths from 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population, and sex: United States, 1999-2007

[Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1977 Office of Management and Budget standards. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Detailed technical notes to the United States 2007 data - mortality"]

| Cause of death (Based on the International Classification of Diseases, Tenth Revision, Second Edition, 2004), Hispanic origin, race for non-Hispanic population, sex, and year | All ages | Under 1 year | 1-4 years | 5-14 years | 15-24 years | 25-34 years | 35-44 years | 45-54 years | 55-64 years | 65-74 years | 75-84 years | 85 years and over | Age not stated |

Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1977 Office of Management and Budget standards. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Detailed technical notes to the United States 2007 data - mortality"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, Second Edition, 2004), Hispanic origin, race for non-Hispanic population, sex, and year

Worktable Orig290F. Deaths from 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population, and sex: United States, 1999-2007

[Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1977 Office of Management and Budget standards. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Detailed technical notes to the United States 2007 data - mortality"]

Worktable Orig290F. Deaths from 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population, and sex: United States, 1999-2007

[Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1977 Office of Management and Budget standards. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Detailed technical notes to the United States 2007 data - mortality"]

| Cause of death (Based on the International Classification of Diseases, Tenth Revision, Second Edition, 2004), Hispanic origin, race for non-Hispanic population, sex, and year | All ages | Under 1 year | 1-4 years | 5-14 years | 15-24 years | 25-34 years | 35-44 years | 45-54 years | 55-64 years | 65-74 years | 75-84 years | 85 years and over | Age not stated |

Worktable Orig290F. Deaths from 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population, and sex: United States, 1999-2007

[Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1977 Office of Management and Budget standards. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Detailed technical notes to the United States 2007 data - mortality"]

Worktable Orig290F. Deaths from 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population, and sex: United States, 1999-2007

[Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1977 Office of Management and Budget standards. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Detailed technical notes to the United States 2007 data - mortality"]

Worktable Orig290F. Deaths from 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population, and sex: United States, 1999-2007

[Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1977 Office of Management and Budget standards. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Detailed technical notes to the United States 2007 data - mortality"]

Worktable Orig290F. Deaths from 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population, and sex: United States, 1999-2007

[Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1977 Office of Management and Budget standards. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Detailed technical notes to the United States 2007 data - mortality"]

Worktable Orig290F. Deaths from 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population, and sex: United States, 1999-2007

[Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1977 Office of Management and Budget standards. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Detailed technical notes to the United States 2007 data - mortality"]

Worktable Orig290F. Deaths from 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population, and sex: United States, 1999-2007

[Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1977 Office of Management and Budget standards. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Detailed technical notes to the United States 2007 data - mortality"]

Worktable Orig290F. Deaths from 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population, and sex: United States, 1999-2007

[Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1977 Office of Management and Budget standards. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Detailed technical notes to the United States 2007 data - mortality"]

Worktable Orig290F. Deaths from 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population, and sex: United States, 1999-2007

[Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1977 Office of Management and Budget standards. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Detailed technical notes to the United States 2007 data - mortality"]

| Cause of death (Based on the International Classification of Diseases, Tenth Revision, Second Edition, 2004), Hispanic origin, race for non-Hispanic population, sex, and year | All ages | Under 1 year | 1-4 years | 5-14 years | 15-24 years | 25-34 years | 35-44 years | 45-54 years | 55-64 years | 65-74 years | 75-84 years | 85 years and over | Age not stated |

Worktable Orig290F. Deaths from 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population, and sex: United States, 1999-2007

[Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1977 Office of Management and Budget standards. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Detailed technical notes to the United States 2007 data - mortality"]

Worktable Orig290F. Deaths from 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population, and sex: United States, 1999-2007

[Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1977 Office of Management and Budget standards. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Detailed technical notes to the United States 2007 data - mortality"]

Worktable Orig290F. Deaths from 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population, and sex: United States, 1999-2007

[Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1977 Office of Management and Budget standards. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Detailed technical notes to the United States 2007 data - mortality"]

Worktable Orig290F. Deaths from 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population, and sex: United States, 1999-2007

[Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1977 Office of Management and Budget standards. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Detailed technical notes to the United States 2007 data - mortality"]

Worktable Orig290F. Deaths from 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population, and sex: United States, 1999-2007

[Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1977 Office of Management and Budget standards. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Detailed technical notes to the United States 2007 data - mortality"]

Worktable Orig290F. Deaths from 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population, and sex: United States, 1999-2007

[Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1977 Office of Management and Budget standards. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Detailed technical notes to the United States 2007 data - mortality"]

| Cause of death (Based on the International Classification of Diseases, Tenth Revision, Second Edition, 2004), Hispanic origin, race for non-Hispanic population, sex, and year | All ages | Under 1 year | 1-4 years | 5-14 years | 15-24 years | 25-34 years | 35-44 years | 45-54 years | 55-64 years | 65-74 years | 75-84 years | 85 years and over | Age not stated |

Worktable Orig290F. Deaths from 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population, and sex: United States, 1999-2007

[Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1977 Office of Management and Budget standards. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Detailed technical notes to the United States 2007 data - mortality"]

Worktable Orig290F. Deaths from 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population, and sex: United States, 1999-2007

[Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1977 Office of Management and Budget standards. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Detailed technical notes to the United States 2007 data - mortality"]

Worktable Orig290F. Deaths from 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population, and sex: United States, 1999-2007

[Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1977 Office of Management and Budget standards. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Detailed technical notes to the United States 2007 data - mortality"]

Worktable Orig290F. Deaths from 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population, and sex: United States, 1999-2007

[Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1977 Office of Management and Budget standards. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Detailed technical notes to the United States 2007 data - mortality"]

Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1977 Office of Management and Budget standards. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Detailed technical notes to the United States 2007 data - mortality"]

Worktable Orig290F. Deaths from 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population, and sex: United States, 1999-2007

[Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1977 Office of Management and Budget standards. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Detailed technical notes to the United States 2007 data - mortality"]

| Cause of death (Based on the International Classification of Diseases, Tenth Revision, Second Edition, 2004), Hispanic origin, race for non-Hispanic population, sex, and year | All ages | Under 1 year | 1-4 years | 5-14 years | 15-24 years | 25-34 years | 35-44 years | 45-54 years | 55-64 years | 65-74 years | 75-84 years | 85 years and over | Age not stated |

Worktable Orig290F. Deaths from 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population, and sex: United States, 1999-2007

[Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1977 Office of Management and Budget standards. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Detailed technical notes to the United States 2007 data - mortality"]

Worktable Orig290F. Deaths from 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population, and sex: United States, 1999-2007

[Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1977 Office of Management and Budget standards. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Detailed technical notes to the United States 2007 data - mortality"]

Worktable Orig290F. Deaths from 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population, and sex: United States, 1999-2007

[Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1977 Office of Management and Budget standards. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Detailed technical notes to the United States 2007 data - mortality"]

| Cause of death (Based on the International Classification of Diseases, Tenth Revision, Second Edition, 2004), Hispanic origin, race for non-Hispanic population, sex, and year | All ages | Under 1 year | 1-4 years | 5-14 years | 15-24 years | 25-34 years | 35-44 years | 45-54 years | 55-64 years | 65-74 years | 75-84 years | 85 years and over | Age not stated |

Worktable Orig290F. Deaths from 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population, and sex: United States, 1999-2007

[Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1977 Office of Management and Budget standards. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Detailed technical notes to the United States 2007 data - mortality"]

Worktable Orig290F. Deaths from 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population, and sex: United States, 1999-2007

[Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1977 Office of Management and Budget standards. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Detailed technical notes to the United States 2007 data - mortality"]

Worktable Orig290F. Deaths from 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population, and sex: United States, 1999-2007

[Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1977 Office of Management and Budget standards. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Detailed technical notes to the United States 2007 data - mortality"]

Worktable Orig290F. Deaths from 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population, and sex: United States, 1999-2007

[Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1977 Office of Management and Budget standards. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Detailed technical notes to the United States 2007 data - mortality"]

Worktable Orig290F. Deaths from 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population, and sex: United States, 1999-2007

[Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1977 Office of Management and Budget standards. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Detailed technical notes to the United States 2007 data - mortality"]

Worktable Orig290F. Deaths from 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population, and sex: United States, 1999-2007

[Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1977 Office of Management and Budget standards. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Detailed technical notes to the United States 2007 data - mortality"]

| Cause of death (Based on the International Classification of Diseases, Tenth Revision, Second Edition, 2004), Hispanic origin, race for non-Hispanic population, sex, and year | All ages | Under 1 year | 1-4 years | 5-14 years | 15-24 years | 25-34 years | 35-44 years | 45-54 years | 55-64 years | 65-74 years | 75-84 years | 85 years and over | Age not stated |

Worktable Orig290F. Deaths from 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population, and sex: United States, 1999-2007

[Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1977 Office of Management and Budget standards. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Detailed technical notes to the United States 2007 data - mortality"]

| Cause of death (Based on the International Classification of Diseases, Tenth Revision, Second Edition, 2004), Hispanic origin, race for non-Hispanic population, sex, and year | All ages | Under 1 year | 1-4 years | 5-14 years | 15-24 years | 25-34 years | 35-44 years | 45-54 years | 55-64 years | 65-74 years | 75-84 years | 85 years and over | Age not stated |

Worktable Orig290F. Deaths from 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population, and sex: United States, 1999-2007

[Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1977 Office of Management and Budget standards. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Detailed technical notes to the United States 2007 data - mortality"]

Worktable Orig290F. Deaths from 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population, and sex: United States, 1999-2007

[Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1977 Office of Management and Budget standards. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Detailed technical notes to the United States 2007 data - mortality"]

| Cause of death (Based on the International Classification of Diseases, Tenth Revision, Second Edition, 2004), Hispanic origin, race for non-Hispanic population, sex, and year | All ages | Under 1 year | 1-4 years | 5-14 years | 15-24 years | 25-34 years | 35-44 years | 45-54 years | 55-64 years | 65-74 years | 75-84 years | 85 years and over | Age not stated |

Worktable Orig290F. Deaths from 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population, and sex: United States, 1999-2007

[Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1977 Office of Management and Budget standards. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Detailed technical notes to the United States 2007 data - mortality"]

Worktable Orig290F. Deaths from 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population, and sex: United States, 1999-2007

[Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1977 Office of Management and Budget standards. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Detailed technical notes to the United States 2007 data - mortality"]

| Cause of death (Based on the International Classification of Diseases, Tenth Revision, Second Edition, 2004), Hispanic origin, race for non-Hispanic population, sex, and year | All ages | Under 1 year | 1-4 years | 5-14 years | 15-24 years | 25-34 years | 35-44 years | 45-54 years | 55-64 years | 65-74 years | 75-84 years | 85 years and over | Age not stated |

Worktable Orig290F. Deaths from 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population, and sex: United States, 1999-2007

[Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1977 Office of Management and Budget standards. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Detailed technical notes to the United States 2007 data - mortality"]

Worktable Orig290F. Deaths from 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population, and sex: United States, 1999-2007

[Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1977 Office of Management and Budget standards. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Detailed technical notes to the United States 2007 data - mortality"]

Worktable Orig290F. Deaths from 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population, and sex: United States, 1999-2007

[Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1977 Office of Management and Budget standards. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Detailed technical notes to the United States 2007 data - mortality"]

Worktable Orig290F. Deaths from 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population, and sex: United States, 1999-2007

[Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1977 Office of Management and Budget standards. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Detailed technical notes to the United States 2007 data - mortality"]

| Cause of death (Based on the International Classification of Diseases, Tenth Revision, Second Edition, 2004), Hispanic origin, race for non-Hispanic population, sex, and year | All ages | Under 1 year | 1-4 years | 5-14 years | 15-24 years | 25-34 years | 35-44 years | 45-54 years | 55-64 years | 65-74 years | 75-84 years | 85 years and over | Age not stated |

Worktable Orig290F. Deaths from 113 selected causes, alcohol-induced causes, drug-induced causes, and injury by firearms, by 10-year age groups, Hispanic origin, race for non-Hispanic population, and sex: United States, 1999-2007

[Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Race categories are consistent with the 1977 Office of Management and Budget standards. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Detailed technical notes to the United States 2007 data - mortality"]
