## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|   | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|---|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|
| Meningococcal infection, unspecified (A39.9)  |       |      |      |       |       |     |      |      |        |       |      |      |      |
| All races, both sexes.....                    | 3     | -    | -    | 1     | -     | 1   | -    | -    | -      | -     | -    | -    | 1    |
| Male.....                                     | 1     | -    | -    | 1     | -     | -   | -    | -    | -      | -     | -    | -    | -    |
| Female.....                                   | 2     | -    | -    | -     | -     | 1   | -    | -    | -      | -     | -    | -    | 1    |
| White, both sexes.....                        | 2     | -    | -    | -     | -     | 1   | -    | -    | -      | -     | -    | -    | 1    |
| Male.....                                     | -     | -    | -    | -     | -     | -   | -    | -    | -      | -     | -    | -    | -    |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|   | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|---|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|
| Septicemia due to other Gram-negative organisms (A41.5) |       |      |      |       |       |     |      |      |        |       |      |      |      |
| All races, both sexes.....                              | 718   | 71   | 47   | 60    | 53    | 53  | 64   | 50   | 50     | 50    | 81   | 65   | 74   |
| Male.....   | 328   | 33   | 19   | 27    | 32    | 23  | 34   | 22   | 21     | 23    | 34   | 30   | 30   |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|   | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|---|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|
| Unspecified viral encephalitis (A86)          |       |      |      |       |       |     |      |      |        |       |      |      |      |
| All races, both sexes.....                    | 118   | 15   | 8    | 9     | 5     | 6   | 6    | 10   | 15     | 16    | 10   | 5    | 13   |
| Male.....                                     | 65    | 7    | 4    | 5     | 2     | 5   | 3    | 4    | 10     | 10    | 6    | 3    | 6    |
| Female.....                                   | 53    | 8    | 4    | 4     | 3     | 1   | 3    | 6    | 5      | 6     | 4    | 2    | 7    |
| White, both sexes.....                        | 106   | 13   | 8    | 9     | 5     | 5   | 5    | 9    | 13     | 14    | 9    | 5    | 11   |
| Male.....                                     | 59    | 6    | 4    | 5     | 2     | 4   | 2    | 4    | 9      | 9     | 6    | 3    | 5    |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|   | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|---|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|
| Acute hepatitis B (B16)   |       |      |      |       |       |     |      |      |        |       |      |      |      |
| All races, both sexes.....                                      | 583   | 50   | 50   | 33    | 61    | 54  | 46   | 44   | 42     | 42    | 54   | 42   | 65   |
| Male.....   | 410   | 34   | 29   | 26    | 43    | 41  | 35   | 27   | 36     | 33    | 37   | 23   | 46   |
| Female.....   | 173   | 16   | 21   | 7     | 18    | 13  | 11   | 17   | 6      | 9     | 17   | 19   | 19   |
| White, both sexes.....  | 382   | 29   | 32   | 21    | 43    | 36  | 27   | 33   | 27     | 31    | 32   | 30   | 41   |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|   | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|---|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|
| Other specified acute viral hepatitis (B17.8) |       |      |      |       |       |     |      |      |        |       |      |      |      |
| All races, both sexes.....                    | 5     | -    | 2    | -     | 2     | -   | -    | 1    | -      | -     | -    | -    | -    |
| Male.....                                     | 1     | -    | -    | -     | 1     | -   | -    | -    | -      | -     | -    | -    | -    |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|  | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|--|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|
| HIV disease resulting in Burkitt's lymphoma (B21.1)                    |       |      |      |       |       |     |      |      |        |       |      |      |      |
| All races, both sexes.....   | 35    | 3    | 1    | -     | 1     | 2   | 2    | 3    | 8      | 2     | 4    | 2    | 7    |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|  | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|--|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|  | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|--|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|
| Other viral infections of unspecified site (B34.8) |       |      |      |       |       |     |      |      |        |       |      |      |      |
| All races, both sexes.....                         | 46    | 5    | 10   | 6     | 5     | 2   | 1    | -    | 1      | 1     | 1    | 8    | 6    |
| Male.....  | 20    | 1    | 2    | 2     | 4     | 2   | 1    | -    | 1      | -     | 1    | 4    | 2    |
| Female.....  | 26    | 4    | 8    | 4     | 1     | -   | -    | -    | -      | 1     | -    | 4    | 4    |
| White, both sexes.....                             | 34    | 5    | 5    | 6     | 4     | 2   | -    | -    | -      | 1     | -    | 7    | 4    |
| Male.....  | 14    | 1    | 1    | 2     | 3     | 2   | -    | -    | -      | -     | -    | 4    | 1    |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|   | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|---|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|
| Other specified mycoses (B48.8)               |       |      |      |       |       |     |      |      |        |       |      |      |      |
| All races, both sexes.....                    | 1     | -    | -    | 1     | -     | -   | -    | -    | -      | -     | -    | -    | -    |
| Male.....                                     | -     | -    | -    | -     | -     | -   | -    | -    | -      | -     | -    | -    | -    |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|   | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|   | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|---|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|
| Sequelae of viral encephalitis (B94.1)        |       |      |      |       |       |     |      |      |        |       |      |      |      |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|   | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|---|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|
| Malignant neoplasm of other and unspecified parts of tongue (C02) |       |      |      |       |       |     |      |      |        |       |      |      |      |
| All races, both sexes.....  | 1,737 | 143  | 144  | 133   | 135   | 156 | 110  | 159  | 168    | 151   | 138  | 150  | 150  |
| Male.....   | 1,135 | 98   | 98   | 80    | 95    | 104 | 71   | 101  | 101    | 92    | 88   | 106  | 101  |
| Female.....   | 602   | 45   | 46   | 53    | 40    | 52  | 39   | 58   | 67     | 59    | 50   | 44   | 49   |
| White, both sexes.....  | 1,498 | 122  | 118  | 113   | 115   | 134 | 95   | 141  | 142    | 129   | 126  | 129  | 134  |
| Male.....   | 975   | 84   | 80   | 66    | 81    | 88  | 61   | 93   | 83     | 79    | 80   | 89   | 91   |
| Female.....   | 523   | 38   | 38   | 47    | 34    | 46  | 34   | 48   | 59     | 50    | 46   | 40   | 43   |
| Black, both sexes.....  | 189   | 17   | 19   | 13    | 16    | 18  | 14   | 12   | 19     | 18    | 12   | 17   | 14   |
| Male.....   | 135   | 13   | 14   | 9     | 13    | 13  | 9    | 6    | 13     | 12    | 8    | 15   | 10   |
| Female.....   | 54    | 4    | 5    | 4     | 3     | 5   | 5    | 6    | 6      | 6     | 4    | 2    | 4    |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|   | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|---|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|
| Mouth, unspecified (C06.9)                    |       |      |      |       |       |     |      |      |        |       |      |      |      |
| All races, both sexes.....                    | 878   | 69   | 59   | 84    | 68    | 65  | 58   | 79   | 82     | 69    | 78   | 89   | 78   |
| Male.....                                     | 488   | 42   | 39   | 50    | 40    | 34  | 29   | 37   | 43     | 37    | 42   | 58   | 37   |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|  | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|--|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|
| Malignant neoplasm of other and ill-defined sites in the lip, oral cavity, and pharynx (C14) |       |      |      |       |       |     |      |      |        |       |      |      |      |
| All races, both sexes.....   | 1,661 | 143  | 119  | 142   | 127   | 137 | 160  | 137  | 131    | 122   | 155  | 116  | 172  |
| Male.....  | 1,223 | 108  | 74   | 107   | 103   | 103 | 115  | 93   | 98     | 92    | 112  | 90   | 128  |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|  | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|   | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|   | Total  | Jan.  | Feb.  | March | April | May   | June  | July  | August | Sept. | Oct.  | Nov.  | Dec.  |
|---|--------|-------|-------|-------|-------|-------|-------|-------|--------|-------|-------|-------|-------|
| Colon, unspecified (C18.9)                        |        |       |       |       |       |       |       |       |        |       |       |       |       |
| All races, both sexes.....                        | 45,309 | 3,817 | 3,607 | 3,806 | 3,765 | 3,754 | 3,620 | 3,770 | 3,931  | 3,734 | 3,835 | 3,667 | 4,003 |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|  | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|--|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|
| Cloacogenic zone (C21.2)                                   |       |      |      |       |       |     |      |      |        |       |      |      |      |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|   | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|---|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|
| Angiosarcoma of liver (C22.3)                 |       |      |      |       |       |     |      |      |        |       |      |      |      |
| All races, both sexes.....                    | 20    | 2    | 2    | 1     | -     | 2   | 1    | 2    | 2      | 3     | 2    | 2    | 1    |
| Male.....                                     | 13    | 1    | 1    | 1     | -     | 2   | 1    | 1    | 2      | 1     | 1    | 1    | 1    |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|   | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|---|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|
| Extrahepatic bile duct (C24.0)                |       |      |      |       |       |     |      |      |        |       |      |      |      |
| All races, both sexes.....                    | 683   | 68   | 49   | 60    | 58    | 40  | 42   | 67   | 70     | 51    | 73   | 56   | 49   |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|   | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|---|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|
| Pancreatic duct (C25.3)                       |       |      |      |       |       |     |      |      |        |       |      |      |      |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|  | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|--|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|   | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|---|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|
| Accessory sinus, unspecified (C31.9)          |       |      |      |       |       |     |      |      |        |       |      |      |      |
| All races, both sexes.....                    | 208   | 10   | 25   | 24    | 20    | 13  | 21   | 16   | 14     | 17    | 19   | 12   | 17   |
| Male.....                                     | 121   | 5    | 14   | 8     | 11    | 9   | 12   | 12   | 9      | 10    | 15   | 8    | 8    |
| Female.....                                   | 87    | 5    | 11   | 16    | 9     | 4   | 9    | 4    | 5      | 7     | 4    | 4    | 9    |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|   | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|---|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|
| Long bones of lower limb (C40.2)  |       |      |      |       |       |     |      |      |        |       |      |      |      |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|   | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|---|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|
| Malignant melanoma of skin, unspecified (C43.9) |       |      |      |       |       |     |      |      |        |       |      |      |      |
| All races, both sexes.....                      | 7,172 | 566  | 551  | 622   | 533   | 650 | 609  | 610  | 604    | 617   | 609  | 571  | 630  |
| Male.....                                       | 4,538 | 364  | 352  | 399   | 331   | 403 | 384  | 378  | 387    | 399   | 386  | 348  | 407  |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|   | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|---|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|
| Peripheral nerves and autonomic nervous system, unspecified (C47.9) |       |      |      |       |       |     |      |      |        |       |      |      |      |
| All races, both sexes.....  | 100   | 10   | 7    | 9     | 2     | 10  | 8    | 10   | 11     | 9     | 12   | 5    | 7    |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|   | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|---|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|
| Connective and soft tissue of lower limb, including hip (C49.2) |       |      |      |       |       |     |      |      |        |       |      |      |      |
| All races, both sexes.....                                      | 228   | 21   | 18   | 19    | 13    | 25  | 20   | 21   | 25     | 19    | 21   | 11   | 15   |
| Male.....   | 117   | 11   | 6    | 8     | 7     | 12  | 13   | 10   | 17     | 9     | 11   | 5    | 8    |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|   | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|---|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|
| Malignant neoplasm of vagina (C52)            |       |      |      |       |       |     |      |      |        |       |      |      |      |
| All races, both sexes.....                    | 391   | 31   | 25   | 20    | 44    | 29  | 36   | 31   | 34     | 32    | 32   | 38   | 39   |
| Male.....                                     | ...   | ...  | ...  | ...   | ...   | ... | ...  | ...  | ...    | ...   | ...  | ...  | ...  |
| Female.....                                   | 391   | 31   | 25   | 20    | 44    | 29  | 36   | 31   | 34     | 32    | 32   | 38   | 39   |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|   | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|---|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|   | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|---|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|
| Overlapping lesion of female genital organs (C57.8) |       |      |      |       |       |     |      |      |        |       |      |      |      |
| All races, both sexes.....                          | 7     | -    | 1    | 1     | -     | -   | -    | -    | 2      | 1     | -    | 2    | -    |
| Male.....   | ...   | ...  | ...  | ...   | ...   | ... | ...  | ...  | ...    | ...   | ...  | ...  | ...  |
| Female.....   | 7     | -    | 1    | 1     | -     | -   | -    | -    | 2      | 1     | -    | 2    | -    |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|   | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|   | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|---|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|
| Adrenal gland, unspecified (C74.9)  |       |      |      |       |       |     |      |      |        |       |      |      |      |
| All races, both sexes.....  | 441   | 40   | 32   | 38    | 34    | 26  | 44   | 42   | 44     | 43    | 18   | 38   | 42   |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|   | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|---|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|
| Malignant neoplasm of other and ill-defined sites (C76) |       |      |      |       |       |     |      |      |        |       |      |      |      |
| All races, both sexes.....                              | 2,096 | 158  | 153  | 165   | 182   | 168 | 170  | 184  | 198    | 174   | 192  | 175  | 177  |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|  | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|--|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|  | Total  | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|   | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|---|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|
| Other specified leukemias (C94.7)             |       |      |      |       |       |     |      |      |        |       |      |      |      |
| All races, both sexes.....                    | 52    | 4    | 4    | 5     | 4     | 8   | 3    | 2    | 7      | 4     | 1    | 3    | 7    |
| Male.....                                     | 36    | 4    | 3    | 4     | 1     | 6   | 2    | 2    | 4      | 2     | 1    | 2    | 5    |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|   | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|---|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|   | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|---|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|
| <b>Meninges, unspecified (D32.9)</b>  |       |      |      |       |       |     |      |      |        |       |      |      |      |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|  | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|--|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|
| Digestive organ, unspecified (D37.9)   |       |      |      |       |       |     |      |      |        |       |      |      |      |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|  | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|--|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|   | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|---|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|
| <b>Bone and articular cartilage (D48.0)</b>     |       |      |      |       |       |     |      |      |        |       |      |      |      |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|   | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|---|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|
| Folate deficiency anemia (D52)                |       |      |      |       |       |     |      |      |        |       |      |      |      |
| All races, both sexes.....                    | 7     | -    | -    | -     | -     | 2   | -    | 1    | 1      | -     | 1    | 1    | 1    |
| Male.....                                     | 5     | -    | -    | -     | -     | 1   | -    | 1    | 1      | -     | -    | 1    | 1    |
| Female.....                                   | 2     | -    | -    | -     | -     | 1   | -    | -    | -      | -     | 1    | -    | -    |
| White, both sexes.....                        | 6     | -    | -    | -     | -     | 1   | -    | 1    | 1      | -     | 1    | 1    | 1    |
| Male.....                                     | 5     | -    | -    | -     | -     | 1   | -    | 1    | 1      | -     | -    | 1    | 1    |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|   | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|   | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|---|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|
| Hereditary factor IX deficiency (D67)         |       |      |      |       |       |     |      |      |        |       |      |      |      |
| All races, both sexes.....                    | 4     | -    | -    | -     | -     | -   | 1    | -    | -      | 1     | 2    | -    | -    |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|   | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|---|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|
| Secondary thrombocytopenia (D69.5)            |       |      |      |       |       |     |      |      |        |       |      |      |      |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|   | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|---|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|
| Common variable immunodeficiency, unspecified (D83.9) |       |      |      |       |       |     |      |      |        |       |      |      |      |
| All races, both sexes.....                            | 9     | -    | 1    | -     | -     | 1   | 2    | -    | 1      | 2     | 2    | -    | -    |
| Male.....   | 2     | -    | 1    | -     | -     | -   | -    | -    | 1      | -     | -    | -    | -    |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|   | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|---|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|
| Nontoxic goiter, unspecified (E04.9)          |       |      |      |       |       |     |      |      |        |       |      |      |      |
| All races, both sexes.....                    | 45    | 4    | 1    | 4     | 7     | -   | 4    | 4    | 3      | 2     | 3    | 7    | 6    |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|   | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|---|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|
| With neurological complications (E10.4)           |       |      |      |       |       |     |      |      |        |       |      |      |      |
| All races, both sexes.....                        | 70    | 4    | 6    | 9     | 6     | 4   | 5    | 6    | 5      | 7     | 4    | 6    | 8    |
| Male.....   | 33    | 2    | 2    | 5     | 4     | 1   | 3    | 3    | 3      | 1     | 2    | 3    | 4    |
| Female.....                                       | 37    | 2    | 4    | 4     | 2     | 3   | 2    | 3    | 2      | 6     | 2    | 3    | 4    |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|   | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|---|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|
| With ketoacidosis (E11.1)                     |       |      |      |       |       |     |      |      |        |       |      |      |      |
| All races, both sexes.....                    | 106   | 11   | 8    | 6     | 9     | 6   | 9    | 7    | 6      | 7     | 7    | 15   | 15   |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|   | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|---|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|
| With coma (E14.0)                             |       |      |      |       |       |     |      |      |        |       |      |      |      |
| All races, both sexes.....                    | 467   | 49   | 32   | 54    | 34    | 41  | 31   | 33   | 29     | 36    | 45   | 37   | 46   |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|   | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|   | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|---|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|
| Syndrome of inappropriate secretion of antidiuretic hormone (E22.2) |       |      |      |       |       |     |      |      |        |       |      |      |      |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|  | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|--|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|
| Retarded development following protein-energy malnutrition (E45) |       |      |      |       |       |     |      |      |        |       |      |      |      |
| All races, both sexes.....                                       | 133   | 13   | 12   | 11    | 9     | 18  | 14   | 5    | 13     | 7     | 12   | 7    | 12   |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|   | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|---|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|
| Obesity due to excess calories (E66.0)                |       |      |      |       |       |     |      |      |        |       |      |      |      |
| All races, both sexes.....                            | 52    | 2    | 5    | 10    | 3     | 5   | 2    | 1    | 5      | 5     | 3    | 5    | 6    |
| Male.....   | 24    | -    | 3    | 5     | 2     | 5   | -    | -    | 3      | 1     | 2    | 2    | 1    |
| Female.....   | 28    | 2    | 2    | 5     | 1     | -   | 2    | 1    | 2      | 4     | 1    | 3    | 5    |
| White, both sexes.....                                | 45    | 2    | 5    | 10    | 3     | 4   | 2    | -    | 3      | 5     | 3    | 3    | 5    |
| Male.....   | 22    | -    | 3    | 5     | 2     | 4   | -    | -    | 2      | 1     | 2    | 2    | 1    |

| Asian or Pacific Islander 2/, both sexes.....              | 4     | 1    | -    | -     | -     | -   | -    | -    | -      | 2     | 1    | -    | -    |
| Male.....  | 3     | 1    | -    | -     | -     | -   | -    | -    | -      | 1     | 1    | -    | -    |
| Female.....  | 1     | -    | -    | -     | -     | -   | -    | -    | -      | 1     | -    | -    | -    |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|  | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|--|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|
| Disorders of lysine and hydroxylysine metabolism (E72.3) |       |      |      |       |       |     |      |      |        |       |      |      |      |
| All races, both sexes.....                               | 5     | 1    | -    | -     | -     | -   | -    | 1    | 1      | -     | 2    | -    | -    |
| Male.....  | 3     | 1    | -    | -     | -     | -   | -    | -    | 1      | -     | 1    | -    | -    |
| Female.....  | 2     | -    | -    | -     | -     | -   | -    | 1    | -      | -     | 1    | -    | -    |
| White, both sexes.....                                   | 5     | 1    | -    | -     | -     | -   | -    | 1    | 1      | -     | 2    | -    | -    |
| Male.....  | 3     | 1    | -    | -     | -     | -   | -    | -    | 1      | -     | 1    | -    | -    |
| Female.....  | 2     | -    | -    | -     | -     | -   | -    | 1    | -      | -     | 1    | -    | -    |
| Black, both sexes.....                                   | -     | -    | -    | -     | -     | -   | -    | -    | -      | -     | -    | -    | -    |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|   | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|---|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|
| GM2 gangliosidosis (E75.0)                    |       |      |      |       |       |     |      |      |        |       |      |      |      |
| All races, both sexes.....                    | 32    | 3    | 2    | 4     | 1     | -   | 1    | 3    | 4      | 2     | 4    | 4    | 4    |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|   | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|---|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|   | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|---|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|
| Secondary systemic amyloidosis (E85.3)        |       |      |      |       |       |     |      |      |        |       |      |      |      |
| All races, both sexes.....                    | 78    | 4    | 5    | 8     | 3     | 5   | 10   | 9    | 5      | 9     | 12   | 3    | 5    |
| Male.....                                     | 44    | 3    | 2    | 3     | 3     | 2   | 8    | 5    | 2      | 8     | 6    | 1    | 1    |
| Female.....                                   | 34    | 1    | 3    | 5     | -     | 3   | 2    | 4    | 3      | 1     | 6    | 2    | 4    |
| White, both sexes.....                        | 59    | 3    | 5    | 5     | 2     | 3   | 5    | 8    | 4      | 8     | 10   | 3    | 3    |
| Male.....                                     | 35    | 2    | 2    | 2     | 2     | -   | 4    | 5    | 2      | 8     | 6    | 1    | 1    |
| Female.....                                   | 24    | 1    | 3    | 3     | -     | 3   | 1    | 3    | 2      | -     | 4    | 2    | 2    |
| Black, both sexes.....                        | 18    | 1    | -    | 3     | 1     | 2   | 5    | 1    | 1      | 1     | 1    | -    | 2    |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|  | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|--|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|   | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|---|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|
| Delirium superimposed on dementia (F05.1)     |       |      |      |       |       |     |      |      |        |       |      |      |      |
| All races, both sexes.....                    | 1     | -    | -    | -     | -     | -   | -    | -    | -      | -     | -    | -    | 1    |
| Male.....                                     | -     | -    | -    | -     | -     | -   | -    | -    | -      | -     | -    | -    | -    |
| Female.....                                   | 1     | -    | -    | -     | -     | -   | -    | -    | -      | -     | -    | -    | 1    |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|   | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|---|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|
| Acute intoxication (F10.0)                    |       |      |      |       |       |     |      |      |        |       |      |      |      |
| All races, both sexes.....                    | 651   | 81   | 38   | 58    | 51    | 35  | 53   | 48   | 48     | 49    | 54   | 61   | 75   |
| Male.....                                     | 497   | 64   | 31   | 48    | 43    | 24  | 38   | 39   | 34     | 34    | 42   | 43   | 57   |
| Female.....                                   | 154   | 17   | 7    | 10    | 8     | 11  | 15   | 9    | 14     | 15    | 12   | 18   | 18   |
| White, both sexes.....                        | 539   | 70   | 34   | 54    | 43    | 24  | 42   | 40   | 32     | 39    | 40   | 57   | 64   |
| Male.....                                     | 407   | 55   | 28   | 44    | 37    | 14  | 28   | 32   | 24     | 27    | 31   | 39   | 48   |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|   | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|---|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|
| Mental and behavioral disorders due to multiple-drug use and use of other psychoactive substances (F19) |       |      |      |       |       |     |      |      |        |       |      |      |      |
| All races, both sexes.....  | 1,443 | 115  | 97   | 111   | 107   | 93  | 145  | 122  | 134    | 138   | 130  | 107  | 144  |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|   | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|---|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|
| Bipolar affective disorder, unspecified (F31.9) |       |      |      |       |       |     |      |      |        |       |      |      |      |
| All races, both sexes.....                      | 81    | 7    | 7    | 8     | 7     | 8   | 7    | 4    | 11     | 5     | 5    | 5    | 7    |
| Male.....                                       | 29    | 2    | -    | 2     | 3     | 4   | 1    | 3    | 5      | 3     | 1    | 1    | 4    |
| Female.....                                     | 52    | 5    | 7    | 6     | 4     | 4   | 6    | 1    | 6      | 2     | 4    | 4    | 3    |
| White, both sexes.....                          | 79    | 6    | 7    | 8     | 7     | 8   | 7    | 4    | 10     | 5     | 5    | 5    | 7    |
| Male.....                                       | 28    | 2    | -    | 2     | 3     | 4   | 1    | 3    | 4      | 3     | 1    | 1    | 4    |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|  | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|--|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|
| Mental disorder, not otherwise specified (F99)       |       |      |      |       |       |     |      |      |        |       |      |      |      |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|   | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|---|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|
| Other bacterial meningitis (G00.8)            |       |      |      |       |       |     |      |      |        |       |      |      |      |
| All races, both sexes.....                    | 21    | 1    | 2    | 1     | -     | 2   | 4    | 2    | -      | 2     | 3    | 1    | 3    |
| Male.....                                     | 13    | 1    | 1    | -     | -     | 2   | 2    | 1    | -      | 2     | 2    | 1    | 1    |
| Female.....                                   | 8     | -    | 1    | 1     | -     | -   | 2    | 1    | -      | -     | 1    | -    | 2    |
| White, both sexes.....                        | 15    | 1    | -    | -     | -     | 2   | 4    | 2    | -      | 2     | 2    | -    | 2    |
| Male.....                                     | 11    | 1    | -    | -     | -     | 2   | 2    | 1    | -      | 2     | 2    | -    | 1    |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|   | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|---|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|
| Motor neuron disease (G12.2)                  |       |      |      |       |       |     |      |      |        |       |      |      |      |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|   | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|---|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|   | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|---|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|
| Grand mal seizures, unspecified (with or without petit mal) (G40.6) |       |      |      |       |       |     |      |      |        |       |      |      |      |
| All races, both sexes.....  | 155   | 10   | 12   | 16    | 13    | 15  | 18   | 7    | 11     | 13    | 15   | 11   | 14   |
| Male.....   | 87    | 7    | 7    | 11    | 4     | 11  | 13   | 3    | 7      | 6     | 6    | 6    | 6    |
| Female.....   | 68    | 3    | 5    | 5     | 9     | 4   | 5    | 4    | 4      | 7     | 9    | 5    | 8    |
| White, both sexes.....  | 123   | 9    | 9    | 12    | 10    | 10  | 14   | 7    | 8      | 8     | 13   | 9    | 14   |
| Male.....   | 64    | 7    | 4    | 8     | 2     | 6   | 9    | 3    | 5      | 4     | 6    | 4    | 6    |
| Female.....   | 59    | 2    | 5    | 4     | 8     | 4   | 5    | 4    | 3      | 4     | 7    | 5    | 8    |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|   | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|---|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|
| Lesion of sciatic nerve (G57.0)               |       |      |      |       |       |     |      |      |        |       |      |      |      |
| All races, both sexes.....                    | 1     | -    | -    | -     | -     | -   | -    | -    | -      | -     | -    | -    | 1    |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|   | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|   | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|---|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|
| Other infantile cerebral palsy (G80.8)        |       |      |      |       |       |     |      |      |        |       |      |      |      |
| All races, both sexes.....                    | 41    | 8    | 4    | 4     | 1     | 3   | 1    | 2    | 2      | 4     | 3    | 3    | 6    |
| Male.....                                     | 24    | 5    | 2    | 1     | 1     | 2   | 1    | 2    | -      | 3     | -    | 3    | 4    |
| Female.....                                   | 17    | 3    | 2    | 3     | -     | 1   | -    | -    | 2      | 1     | 3    | -    | 2    |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|  | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|--|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|
| Rheumatic chorea without heart involvement (I02.9) |       |      |      |       |       |     |      |      |        |       |      |      |      |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|   | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|---|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|
| Rheumatic aortic valve disease, unspecified (I06.9) |       |      |      |       |       |     |      |      |        |       |      |      |      |
| All races, both sexes.....                          | 26    | 2    | 1    | -     | 4     | 4   | 2    | 1    | 2      | 1     | 6    | 2    | 1    |
| Male.....   | 11    | -    | 1    | -     | 2     | 3   | 1    | 1    | -      | -     | 2    | -    | 1    |
| Female.....   | 15    | 2    | -    | -     | 2     | 1   | 1    | -    | 2      | 1     | 4    | 2    | -    |
| White, both sexes.....                              | 24    | 2    | 1    | -     | 3     | 4   | 2    | 1    | 2      | 1     | 5    | 2    | 1    |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|   | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|---|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|
| Tricuspid valve disease, unspecified (I07.9)  |       |      |      |       |       |     |      |      |        |       |      |      |      |
| All races, both sexes.....                    | 23    | 2    | 1    | 1     | 2     | -   | 3    | -    | 2      | 3     | 4    | 2    | 3    |
| Male.....                                     | 10    | 2    | 1    | -     | 2     | -   | -    | -    | 1      | 2     | 1    | -    | 1    |
| Female.....                                   | 13    | -    | -    | 1     | -     | -   | 3    | -    | 1      | 1     | 3    | 2    | 2    |
| White, both sexes.....                        | 19    | 1    | 1    | 1     | 2     | -   | 2    | -    | 1      | 2     | 4    | 2    | 3    |
| Male.....                                     | 8     | 1    | 1    | -     | 2     | -   | -    | -    | -      | 2     | 1    | -    | 1    |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|  | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|--|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|
| Disorders of both aortic and tricuspid valves (I08.2)              |       |      |      |       |       |     |      |      |        |       |      |      |      |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|  | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|--|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|
| Hypertensive heart and renal disease (I13)                                   |       |      |      |       |       |     |      |      |        |       |      |      |      |
| All races, both sexes.....   | 3,108 | 291  | 257  | 281   | 258   | 257 | 257  | 212  | 235    | 239   | 259  | 245  | 317  |
| Male.....  | 1,326 | 114  | 107  | 127   | 109   | 104 | 107  | 84   | 110    | 95    | 102  | 117  | 150  |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|  | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|--|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|
| Acute transmural myocardial infarction of unspecified site (I21.3) |       |      |      |       |       |     |      |      |        |       |      |      |      |
| All races, both sexes.....   | 16    | -    | 2    | -     | 1     | 3   | 4    | -    | -      | -     | 2    | 2    | 2    |
| Male.....  | 9     | -    | 1    | -     | -     | 2   | 2    | -    | -      | -     | 2    | 1    | 1    |
| Female.....  | 7     | -    | 1    | -     | 1     | 1   | 2    | -    | -      | -     | -    | 1    | 1    |
| White, both sexes.....   | 12    | -    | 1    | -     | 1     | 1   | 3    | -    | -      | -     | 2    | 2    | 2    |
| Male.....  | 6     | -    | 1    | -     | -     | -   | 1    | -    | -      | -     | 2    | 1    | 1    |
| Female.....  | 6     | -    | -    | -     | 1     | 1   | 2    | -    | -      | -     | -    | 1    | 1    |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|   | Total  | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec.  |
|---|--------|------|------|-------|-------|-----|------|------|--------|-------|------|------|-------|
| Chronic ischemic heart disease, unspecified (I25.9) |        |      |      |       |       |     |      |      |        |       |      |      |       |
| All races, both sexes.....                          | 10,533 | 954  | 871  | 923   | 889   | 888 | 810  | 839  | 845    | 777   | 847  | 824  | 1,066 |
| Male.....   | 5,650  | 514  | 471  | 498   | 481   | 471 | 450  | 457  | 455    | 405   | 449  | 430  | 569   |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|  | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|--|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|   | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|   | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|---|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|
| Disease of pericardium, unspecified (I31.9)   |       |      |      |       |       |     |      |      |        |       |      |      |      |
| All races, both sexes.....                    | 233   | 15   | 28   | 28    | 18    | 19  | 17   | 13   | 19     | 20    | 14   | 17   | 25   |
| Male.....                                     | 117   | 4    | 15   | 12    | 12    | 13  | 5    | 7    | 9      | 9     | 8    | 8    | 15   |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|   | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|---|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|
| Other nonrheumatic mitral valve disorders (I34.8)       |       |      |      |       |       |     |      |      |        |       |      |      |      |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|   | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|---|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|
| Other aortic valve disorders (I35.8)          |       |      |      |       |       |     |      |      |        |       |      |      |      |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|   | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|   | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|---|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|
| Supraventricular tachycardia (I47.1)          |       |      |      |       |       |     |      |      |        |       |      |      |      |
| All races, both sexes.....                    | 124   | 11   | 13   | 14    | 17    | 16  | 7    | 7    | 7      | 5     | 10   | 6    | 11   |
| Male.....                                     | 43    | 4    | 3    | 7     | 6     | 3   | 3    | 2    | 2      | 1     | 5    | 2    | 5    |
| Female.....                                   | 81    | 7    | 10   | 7     | 11    | 13  | 4    | 5    | 5      | 4     | 5    | 4    | 6    |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|   | Total  | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec.  |
|---|--------|------|------|-------|-------|-----|------|------|--------|-------|------|------|-------|
| Heart failure, unspecified (I50.9)                                |        |      |      |       |       |     |      |      |        |       |      |      |       |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|   | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|---|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|
| Intracerebral hemorrhage in hemisphere, subcortical (I61.0) |       |      |      |       |       |     |      |      |        |       |      |      |      |
| All races, both sexes.....                                  | 249   | 20   | 23   | 17    | 23    | 16  | 18   | 14   | 25     | 22    | 21   | 28   | 22   |
| Male.....   | 133   | 14   | 19   | 7     | 12    | 10  | 8    | 7    | 13     | 13    | 11   | 11   | 8    |
| Female.....   | 116   | 6    | 4    | 10    | 11    | 6   | 10   | 7    | 12     | 9     | 10   | 17   | 14   |
| White, both sexes.....                                      | 186   | 12   | 17   | 16    | 17    | 14  | 14   | 8    | 18     | 18    | 16   | 20   | 16   |
| Male.....   | 99    | 7    | 14   | 7     | 11    | 8   | 7    | 5    | 10     | 11    | 7    | 7    | 5    |
| Female.....   | 87    | 5    | 3    | 9     | 6     | 6   | 7    | 3    | 8      | 7     | 9    | 13   | 11   |
| Black, both sexes.....                                      | 48    | 7    | 5    | 1     | 6     | 2   | 4    | 2    | 6      | 4     | 3    | 4    | 4    |
| Male.....   | 25    | 6    | 4    | -     | 1     | 2   | 1    | -    | 2      | 2     | 3    | 2    | 2    |
| Female.....   | 23    | 1    | 1    | 1     | 5     | -   | 3    | 2    | 4      | 2     | -    | 2    | 2    |
| American Indian 1/, both sexes.....                         | 2     | -    | -    | -     | -     | -   | -    | -    | -      | -     | -    | 1    | 1    |
| Male.....   | 1     | -    | -    | -     | -     | -   | -    | -    | -      | -     | -    | 1    | -    |
| Female.....   | 1     | -    | -    | -     | -     | -   | -    | -    | -      | -     | -    | -    | 1    |
| Asian or Pacific Islander 2/, both sexes.....               | 13    | 1    | 1    | -     | -     | -   | -    | 4    | 1      | -     | 2    | 3    | 1    |
| Male.....   | 8     | 1    | 1    | -     | -     | -   | -    | 2    | 1      | -     | 1    | 1    | 1    |
| Female.....   | 5     | -    | -    | -     | -     | -   | -    | 2    | -      | -     | 1    | 2    | -    |
| Intracerebral hemorrhage in hemisphere, cortical (I61.1)    |       |      |      |       |       |     |      |      |        |       |      |      |      |
| All races, both sexes.....                                  | 146   | 11   | 5    | 11    | 11    | 13  | 18   | 10   | 17     | 11    | 12   | 13   | 14   |
| Male.....   | 60    | 5    | 2    | 5     | 4     | 6   | 8    | 3    | 8      | 3     | 3    | 9    | 4    |
| Female.....   | 86    | 6    | 3    | 6     | 7     | 7   | 10   | 7    | 9      | 8     | 9    | 4    | 10   |
| White, both sexes.....                                      | 120   | 9    | 5    | 9     | 11    | 12  | 14   | 8    | 13     | 10    | 6    | 12   | 11   |
| Male.....   | 48    | 5    | 2    | 4     | 4     | 6   | 5    | 3    | 6      | 3     | -    | 8    | 2    |
| Female.....   | 72    | 4    | 3    | 5     | 7     | 6   | 9    | 5    | 7      | 7     | 6    | 4    | 9    |
| Black, both sexes.....                                      | 17    | 2    | -    | -     | -     | 1   | 3    | 1    | 1      | -     | 5    | 1    | 3    |
| Male.....   | 8     | -    | -    | -     | -     | -   | 2    | -    | -      | -     | 3    | 1    | 2    |
| Female.....   | 9     | 2    | -    | -     | -     | 1   | 1    | 1    | 1      | -     | 2    | -    | 1    |
| American Indian 1/, both sexes.....                         | 3     | -    | -    | 1     | -     | -   | -    | -    | 2      | -     | -    | -    | -    |
| Male.....   | 3     | -    | -    | 1     | -     | -   | -    | -    | 2      | -     | -    | -    | -    |
| Female.....   | -     | -    | -    | -     | -     | -   | -    | -    | -      | -     | -    | -    | -    |
| Asian or Pacific Islander 2/, both sexes.....               | 6     | -    | -    | 1     | -     | -   | 1    | 1    | 1      | 1     | 1    | -    | -    |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|   | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|---|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|
| Intracerebral hemorrhage in hemisphere, unspecified (I61.2) |       |      |      |       |       |     |      |      |        |       |      |      |      |
| All races, both sexes.....                                  | 29    | 2    | 4    | 5     | -     | 1   | 2    | 2    | 3      | 3     | 2    | 3    | 2    |
| Male.....   | 10    | -    | -    | 1     | -     | 1   | 2    | -    | 1      | 1     | 1    | 2    | 1    |
| Female.....   | 19    | 2    | 4    | 4     | -     | -   | -    | 2    | 2      | 2     | 1    | 1    | 1    |
| White, both sexes.....                                      | 26    | 2    | 4    | 4     | -     | 1   | 2    | 2    | 3      | 3     | 2    | 2    | 1    |
| Male.....   | 8     | -    | -    | 1     | -     | 1   | 2    | -    | 1      | 1     | 1    | 1    | -    |
| Female.....   | 18    | 2    | 4    | 3     | -     | -   | -    | 2    | 2      | 2     | 1    | 1    | 1    |
| Black, both sexes.....                                      | 2     | -    | -    | 1     | -     | -   | -    | -    | -      | -     | -    | 1    | -    |
| Male.....   | 1     | -    | -    | -     | -     | -   | -    | -    | -      | -     | -    | 1    | -    |
| Female.....   | 1     | -    | -    | 1     | -     | -   | -    | -    | -      | -     | -    | -    | -    |
| American Indian 1/, both sexes.....                         | -     | -    | -    | -     | -     | -   | -    | -    | -      | -     | -    | -    | -    |
| Male.....   | -     | -    | -    | -     | -     | -   | -    | -    | -      | -     | -    | -    | -    |
| Female.....   | -     | -    | -    | -     | -     | -   | -    | -    | -      | -     | -    | -    | -    |
| Asian or Pacific Islander 2/, both sexes.....               | 1     | -    | -    | -     | -     | -   | -    | -    | -      | -     | -    | -    | 1    |
| Male.....   | 1     | -    | -    | -     | -     | -   | -    | -    | -      | -     | -    | -    | 1    |
| Female.....   | -     | -    | -    | -     | -     | -   | -    | -    | -      | -     | -    | -    | -    |
| Intracerebral hemorrhage in brain stem (I61.3)              |       |      |      |       |       |     |      |      |        |       |      |      |      |
| All races, both sexes.....                                  | 728   | 65   | 53   | 61    | 63    | 72  | 55   | 65   | 51     | 61    | 57   | 55   | 70   |
| Male.....   | 390   | 28   | 28   | 38    | 39    | 38  | 35   | 40   | 28     | 26    | 28   | 27   | 35   |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|   | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|---|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|
| Nontraumatic extradural hemorrhage (I62.1)                  |       |      |      |       |       |     |      |      |        |       |      |      |      |
| All races, both sexes.....                                  | 25    | 2    | -    | 4     | 3     | 1   | 1    | 1    | 1      | 2     | 2    | 4    | 4    |
| Male.....   | 12    | -    | -    | 2     | 2     | 1   | -    | 1    | 1      | 1     | 1    | 2    | 1    |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|   | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|---|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|
| Cerebral aneurysm, nonruptured (I67.1)        |       |      |      |       |       |     |      |      |        |       |      |      |      |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|  | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|--|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|
| Sequelae of intracerebral hemorrhage (I69.1)                   |       |      |      |       |       |     |      |      |        |       |      |      |      |
| All races, both sexes.....                                     | 159   | 16   | 10   | 9     | 11    | 16  | 16   | 13   | 8      | 8     | 17   | 17   | 18   |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|   | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|---|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|
| Dissection of aorta [any part] (I71.0)        |       |      |      |       |       |     |      |      |        |       |      |      |      |
| All races, both sexes.....                    | 3,649 | 348  | 324  | 281   | 301   | 309 | 279  | 250  | 236    | 284   | 349  | 328  | 360  |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|   | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|---|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|
| Aneurysm of unspecified site (I72.9)          |       |      |      |       |       |     |      |      |        |       |      |      |      |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|  | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|--|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|
| Other specified disorders of arteries and arterioles (I77.8) |       |      |      |       |       |     |      |      |        |       |      |      |      |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|   | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|---|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|
| Portal vein thrombosis (I81)                  |       |      |      |       |       |     |      |      |        |       |      |      |      |
| All races, both sexes.....                    | 86    | 7    | 13   | 7     | 5     | 7   | 6    | 7    | 9      | 7     | 6    | 4    | 8    |
| Male.....                                     | 33    | 4    | 7    | 1     | 2     | 3   | 1    | 3    | 5      | 3     | -    | 1    | 3    |
| Female.....                                   | 53    | 3    | 6    | 6     | 3     | 4   | 5    | 4    | 4      | 4     | 6    | 3    | 5    |
| White, both sexes.....                        | 72    | 5    | 11   | 7     | 2     | 6   | 5    | 5    | 8      | 6     | 6    | 4    | 7    |
| Male.....                                     | 30    | 4    | 5    | 1     | 1     | 3   | 1    | 3    | 5      | 3     | -    | 1    | 3    |
| Female.....                                   | 42    | 1    | 6    | 6     | 1     | 3   | 4    | 2    | 3      | 3     | 6    | 3    | 4    |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|   | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|---|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|
| Nonspecific lymphadenitis, unspecified (I88.9)                          |       |      |      |       |       |     |      |      |        |       |      |      |      |
| All races, both sexes.....  | 4     | -    | 1    | 2     | -     | -   | 1    | -    | -      | -     | -    | -    | -    |
| Male.....   | 2     | -    | -    | 2     | -     | -   | -    | -    | -      | -     | -    | -    | -    |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|   | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|---|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|
| Bacterial pneumonia, not elsewhere classified (J15)   |       |      |      |       |       |     |      |      |        |       |      |      |      |
| All races, both sexes.....                            | 4,238 | 439  | 397  | 399   | 357   | 326 | 307  | 265  | 245    | 267   | 304  | 342  | 590  |
| Male.....   | 2,145 | 201  | 209  | 214   | 187   | 163 | 160  | 137  | 126    | 136   | 157  | 172  | 283  |
| Female.....   | 2,093 | 238  | 188  | 185   | 170   | 163 | 147  | 128  | 119    | 131   | 147  | 170  | 307  |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|   | Total  | Jan.  | Feb.  | March | April | May   | June  | July  | August | Sept. | Oct.  | Nov.  | Dec.  |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|  | Total   | Jan.  | Feb.  | March | April | May   | June  | July  | August | Sept. | Oct.  | Nov.  | Dec.   |
|--|---------|-------|-------|-------|-------|-------|-------|-------|--------|-------|-------|-------|--------|
| Chronic obstructive pulmonary disease, unspecified (J44.9) |         |       |       |       |       |       |       |       |        |       |       |       |        |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|  | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|   | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|---|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|
| Interstitial pulmonary disease, unspecified (J84.9) |       |      |      |       |       |     |      |      |        |       |      |      |      |
| All races, both sexes.....                          | 2,034 | 179  | 186  | 179   | 178   | 174 | 179  | 144  | 152    | 142   | 170  | 169  | 182  |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|  | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|--|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|
| Pyothorax without fistula (J86.9)                |       |      |      |       |       |     |      |      |        |       |      |      |      |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|   | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|---|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|
| Chronic respiratory failure (J96.1)           |       |      |      |       |       |     |      |      |        |       |      |      |      |
| All races, both sexes.....                    | 233   | 23   | 22   | 16    | 20    | 19  | 15   | 16   | 24     | 14    | 21   | 23   | 20   |
| Male.....                                     | 106   | 10   | 6    | 6     | 12    | 9   | 4    | 7    | 12     | 7     | 12   | 13   | 8    |
| Female.....                                   | 127   | 13   | 16   | 10    | 8     | 10  | 11   | 9    | 12     | 7     | 9    | 10   | 12   |
| White, both sexes.....                        | 194   | 21   | 20   | 14    | 15    | 16  | 12   | 12   | 20     | 11    | 14   | 21   | 18   |
| Male.....                                     | 86    | 9    | 5    | 5     | 9     | 8   | 3    | 4    | 9      | 6     | 8    | 13   | 7    |

## Worktable IV. Deaths from each cause, by month, race, and sex: United States, 2003

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. California, Hawaii, Idaho, Maine, Montana, New York, and Wisconsin reported multiple-race data in 2003. The multiple-race data for these states were bridged to the single race categories of the 1977 Office of Management and Budget standards for comparability with other States; see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003." Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see <http://www.cdc.gov/nchs> and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2003"]

Cause of death (Based on the International Classification of Diseases, Tenth Revision, 1992), race, and sex

|   | Total | Jan. | Feb. | March | April | May | June | July | August | Sept. | Oct. | Nov. | Dec. |
|---|-------|------|------|-------|-------|-----|------|------|--------|-------|------|------|------|
| Disorders of diaphragm (J98.6)                |       |      |      |       |       |     |      |      |        |       |      |      |      |
| All races, both sexes.....                    | 34    | 3    | 4    | 2     | 4     | 4   | 2    | 2    | 2      | 1     | 5    | 1    | 4    |
