Approval and Promulgation of Air Quality Implementation Plans: Florida; Approval of Section 110(a)(1) Maintenance Plan for the 1997 8-Hour Ozone Standard for the Jacksonville, Tampa Bay, and Southeast Florida Areas

AGENCY: Environmental Protection
Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to approve revisions to the Florida State Implementation Plan (SIP) concerning the maintenance plans addressing the 1997 8-hour ozone standards for the Jacksonville, Tampa Bay, and Southeast Florida 1997 8-hour ozone attainment areas in Florida, hereafter referred to as the "Jacksonville Area," "Tampa Bay Area," and "Southeast Florida Area," respectively. The Jacksonville Area is comprised of Duval County; the Tampa Bay Area comprises Hillsborough and Pinellas Counties; and the Southeast Florida Area comprises Broward, Dade, and Palm Beach Counties. These maintenance plans were submitted to EPA on July 2, 2009, by the State of Florida, through the Florida Department of Environmental Protection, and ensure the continued attainment of the 1997 8-hour ozone national ambient air quality standards (NAAQS) through the year 2014 in the Jacksonville, Tampa Bay, and Southeast Florida Areas. EPA is proposing to approve the SIP revisions pursuant to section 110 of the Clean Air Act. These maintenance plans appear to meet all the statutory and regulatory requirements, and are consistent with EPA's guidance. On March 12, 2008, EPA issued revised ozone standards. On September 16, 2009, EPA announced it would reconsider the 2008 NAAQS for ozone and proposed a new schedule for designations for a reconsidered standard. EPA published a proposed rulemaking on January 19, 2010, for reconsideration of the 2008 NAAQS, and expects to finalize the reconsidered NAAQS by August 2010. The current proposed action, however, is being

taken to address requirements under the 1997 8-hour ozone standards. Requirements for the Jacksonville, Tampa Bay, and Southeast Florida Areas under the 2010 reconsidered ozone standards will be addressed in the future.

further activity is contemplated. I. Background

The Department of Health and Human Services published a proposed rule on the Total Inward Leakage Requirements for Respirators on Friday, October 30, 2009 (74 FR 56141).

NIOSH held a public meeting on the proposed rule on December 3, 2009, at which time commenters asked for an extension of the comment period in order to evaluate the feasibility and cost associated with the proposed rule. NIOSH subsequently published an extension of the comment period to March 30, 2010 in the **Federal Register** on December 17, 2009 (74 FR 66935).

During the comment period, several commenters requested a further extension of the comment period in order to conduct tests and prepare responses. On April 20, 2010, NIOSH responded by reopening the docket for comments until September 30, 2010 (75 FR 20546).

II. Public Meeting

NIOSH will hold a second public meeting on the proposed rule, on the date and time listed above to allow commenters to present their findings and ongoing activities.
