FRIDAY UPDATE

December 6, 2024

CDC's Public Health Emergency Preparedness (PHEP) program is a critical source of funding, guidance, and technical assistance for state, local, and territorial public health departments to strengthen their public health preparedness capabilities and improve their response readiness. The Division of State and Local Readiness (DSLRL) Friday Update provides information and resources for PHEP recipients and other preparedness planners. Please share the newsletter with your colleagues.

For more information, visit the [CDC State and Local Readiness website](#) or contact us at preparedness@cdc.gov.

CDC Provides Supporting Materials for PHEP BP1 Work Plan Reporting Tool

CDC has published resources to aid in completion of the PHEP Budget Period 1 (BP1) Recipient Work Plan Reporting Tool, including a [comprehensive user guide](#), a [recording of the November 19 training session](#), and a [copy of the training slides](#). These materials are available in the Ready CAMP Knowledge Center, as well as the PHEP Recipient Response Workspace (under RWPRT Resources).

December 11 PHEP Connects Addresses Modeling and Analytic Tools for Outbreak Decision-Making

CDC's December PHEP Connects webinar will highlight modeling and analytic tools for decision-making in outbreak response. The webinar, "The Center for Outbreak Response Innovation (CORI) and State, Tribal, Local, and Territorial (STLT) Health Department Partnership: Supporting the Use of Modeling and Analytic Tools in Outbreak Decision-Making," will be held at **1 p.m. EST on Wednesday December 11**.

Diane Meyer, senior scholar at the Johns Hopkins Center for Health Security and lead for the CORI | STLT partnership, will provide an overview of the CDC-funded project, which aims to develop, test, and implement forward-thinking outbreak analytic solutions for CDC, STLT health departments, and other decision-makers across the country. During this webinar, participants will learn about previous and current CORI partnership, resources available through the CORI online platform, and future research plans.

Preparedness and Response Resources

December 10 Webinar Highlights Social Work Resource for Response

Social workers play a critical role in disaster relief and emergency preparedness. However, licensing requirements may make it tougher for practitioners to provide survivors the care they need. The [Social Work Licensure Compact](#) can increase public access to social work services by providing licensed social workers with opportunities for multistate practice.

The [Office of Human Services Emergency Preparedness and Response](#) (OHSEPR) in the HHS Office of the Administration for Children and Families, along with the Council of State Governments, will host a webinar at **2 p.m. EST on Tuesday, December 10**, to provide an overview of the Social Work Licensure Compact and how it can support disaster relief efforts. To learn more about the webinar and register in advance, visit www.acf.hhs.gov/ohsepr/event/social-work-licensure-compact-informational-webinar.

News You Can Use

National Advisory Committee on Individuals with Disabilities and Disasters Hosts Public Meeting December 10

The next public meeting of the National Advisory Committee on Individuals with Disabilities and Disasters (NACIDD) will be held from **1:30 p.m. EST on Wednesday, December 4**. During the meeting, NACIDD will discuss recommendations related to 1) expansion of the existing [HHS emPOWER Program](#); 2) development of an analysis of the Emergency Response Framework and the Community Lifelines framework to find gaps in equitable and compliant incident management and disaster response activities. Interested participants can register and find additional information at the [NACIDD public meeting webpage](#).

AMCHP Launches Maternal and Child Health Emergency Preparedness and Response Course

The CDC Division of Reproductive Health's Emergency Preparedness and Response Team is working with the Association of Maternal and Child Health Programs (AMCHP) to conduct a maternal and child health emergency preparedness and response leadership academy from February through August 2025. This six-month, hybrid experience aims to build the leadership skills of individuals to help improve health outcomes for women, children, and families during emergencies.

[Applications must be submitted](#) by **11:59 p.m. EST. on Wednesday, December 18**. For more information, visit the [AMCHP website](#).
